Education

KJ SOMAIYA COLLEGE OF ENGINEERING — Vidyavihar, Mumbai

BTech in Information Technology. CGPA – 8.12/10 — 2021 – 2025

LAKSHYA JUNIOR COLLEGE — Kalyan, Mumbai

Completed 12th (HSC) with 84.17% — 2021

Skills and Interests

- **Technical:** Python, LangChain PostgreSQL, Prompt Engineering, Streamlit, Firebase, Natural Language Processing, Flask
- **Soft Skills:** Detail Oriented, Adaptability, Critical Thinking, Creative problem solving.
- **Tools:** Canva, Figma, Git, Github, PowerBI, Looker.

Projects

- **DocuTalk (AI-Enhanced Conversational Interface for Document Understanding)** (Last Year Project)
  [Python, Flutter, Flask, Gemini LLM, FAISS, Langchain]
  - Developed a cross-platform application that allows users to interact with documents through a conversational interface.
  - Implemented semantic search functionality using FAISS and Langchain to provide contextually relevant answers to user queries.
- **Inhance (AI-Powered LinkedIn Profile Optimizer)**
  [Python, Streamlit, GROQ Cloud, Mixtral LLM,]
  - Hosted an app to provide personalized feedback and improvement suggestions for LinkedIn profiles, including targeted role optimization and chatbot guidance.
  - Designed a multi-agent system for profile evaluation and recommendation, enhancing user profiles based on specific job roles.
- **Finance Advisor Agent**
  [Python, Streamlit, GROQ Cloud, Gemma 9B, Vector databases, FAISS]
  - Developed an AI assistant for financial computations (MPBF, DP), RBI compliance checks, and industry classification with a vector database for seamless updates.
  - Designed an intuitive GUI leveraging dynamic embeddings and vector search to provide real-time, scenario-based insights and actionable recommendations.
- **Cryptocurrency Fetching Agent**
  [Python, Streamlit, Scrapping, Google Translation, Together AI, Llama 3.2 8B]
  - Built a AI Agent to provide real-time cryptocurrency prices and multilingual query handling with dynamic error management and multi-currency support for seamless interactions.
- **Customer Churn Predictor**
  [Python, Random Forest, Decision trees, Power BI, Numpy, Pandas, Seaborn, Matplotlib]
  - Implemented a machine learning model using Python and a Random Forest classifier to predict customer churn in the telecommunications industry with 94% accuracy.
  - Presented key findings and actionable insights through an interactive Power BI dashboard.

Work Experience

Webotix IT Consultancy — Mumbai, Maharashtra
AI Engineer Intern — December2024 – Ongoing

- Developed RAG-based AI template generator using Flask + Azure + RAG with dynamic prompt pipelines for intelligent document generation and compliance prediction.
- Collaborated on frontend integration with Flutter web.
- Spearheaded ideation and documentation for an AI-powered QC document automation platform, contributing to product roadmap and feature scoping.

N.K. Engineering — Mumbai, Maharashtra
Business Analyst — May 2024 – July 2024

- Led data-driven strategies to identify growth opportunities and secure financial support. Successfully attracted new investors, resulting in a significant increase in funding and 12% expansion in market share.

MetaRizz — Mumbai, Maharashtra
Front-End Development — Sept 2023 – Oct 2023

- Led the front-end development and UI/UX design for Medinobel, a healthcare app, ensuring a seamless user experience.

Watermelon Gang — Mumbai, Maharashtra
Business Development — Aug 2022 -Feb 2023

- Created and curated engaging content, increasing follower engagement and boosting brand visibility for a leading banking app and a global cryptocurrency platform across multiple platforms.
- Onboarded 5 new clients and ensured high-quality content delivery.

Volunteering

Vacha NGO — July 2024
(English & Computer Instructor)

- Coached English and computer skills to students, crafted innovative learning aids to improve engagement.
